

Dear KSD Families,

During this challenging time for our community—local and across the world—we hope this finds you and your families in good health and spirits. Even while apart, we are **connecting even closer and acting together** to make big and small differences.

To support our shelter-in-place, our neighborhood small businesses are working the front lines to provide groceries, food-to-go and other essential items and services. Please consider shopping these local businesses by ordering for delivery, takeout or purchasing gift cards by going online or by phone. These **small businesses have been part of our schools’ support system in many ways** and it’s especially important to, in turn, support them at a time when they continue to provide all that we need to care for our families.

Here’s wishing that this *extra time* with your families makes for extraordinary moments together.
