

BOARD SELF-EVALUATION AND GOAL SETTING PROTOCOL

Principle: The Board values an annual assessment of its progress toward goals, adherence to governing standards, and review of norms that are efficient and effective.

Protocol:

1. The Board will rate the collective performance of the Governing Team using CSBA's Performing Responsibilities Tool.
2. Each June the Board will discuss the progress made toward the current year's goals, and set goals for next year. Goals will derive from the Strategic Plan, and will inform the development of the Superintendent's goals.
3. The Board will also review its norms and decide if they need to be amended.
