

summer sea camp

@SPAULDING Marine Center

At Spaulding, our Summer Sea Camp offers a truly unique summer camp experience for your child ages 11-15.

Based out of our historic and fully-active boatyard, campers will see maritime industry first hand, learn to interpret the winds and tides, as well as learn about the history and geography of the bay area from aboard our historic sailboat, *Freda*. We will further explore the way our landscape and ecology has been shaped by natural and human forces as we hike headland trails to secluded beach coves, and fish from the rocks of local piers.

We will hone our creative and technical skills as we make our own fishing poles, wood block carvings, and prints in the shipyard woodshop, and learn about the native flora and fauna of our watershed through involvement with ongoing local stewardship and citizen science projects.

In all our activities, we strive to learn through hands on involvement, observation, and art.

The camp culminates in a sailing trip to and overnight campout on nearby Angel Island.

Session 1: July 8 to July 19
Session 2: July 29 to August 9
(Monday-Friday 9am-3pm)
\$790 per child per session
