Learn to make, code and invent in classes and camps for ages 4–14

TinkerTech®

Classes year-round in Marin schools and at our center in Corte Madera
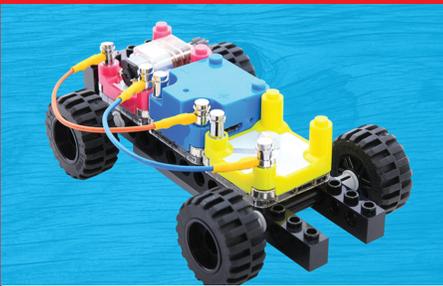

Inventors

Explore STEAM (Science, Technology, Engineering, Art and Math) through fun creative projects and design challenges as you build and tinker with craft materials, leds, makey makey inventors kits and more.

Invent and Code

Take a deep dive into coding, design and engineering in this dynamic STEAM class. Learn to code in Scratch and explore a variety of circuit-building and prototyping tools from Tinkering Labs, littleBits and CircuitCubes.

Fun with Robots

Learn how to build and program a robot in this fun hands-on class. Discover the difference between a robot and a machine, learn the circuitry behind them and program a variety of robots to do what you want them to do.
